Ed-Fi to CEDS: Plug and Play

Thursday, July 26, 2018

Introductions

- Dean Folkers – Nebraska
- Jill Aurand - Nebraska
- DeDe Conners – Kentucky
- Maureen Wentworth – Ed-Fi
- Sayee Srinivasan – Ed-Fi
- Duane Brown – CEDS

Project Overview

- CEDS/Ed-Fi Collaboration Agreement
- ETL Project with Nebraska
- API Project with Kentucky

ETL Project Demonstration Part 1

- Populated Ed-Fi ODS
- Clean install of Generate with empty CEDS ODS
- Ed-Fi to CEDS ETL Package
- Run the Migration

Nebraska Vision & Goals

- Dashboard to Efficiency to Interoperability
- Transition to Ed-Fi Statewide (CEDDS aligned)
- Need for updating approach to EDFacts
 - Generate
 - Create ETL (share broadly)
- Leverage resources and tools
- Collaborate and Connect

ETL Project Demonstration Part 2

- Generate CEDS ODS populated with Ed-Fi data
- Run the FS052 (Membership) *EDFacts* report in Generate

ETL Project Additional Information

- Enumerations/Option Set Mapping
- Validation/ETL run error logging
- Nebraska Pilot

API Project Introduction

- Project Overview
- Enumerations/Option Set Mapping
- Kentucky Pilot

Kentucky Vision & Goals

- Generate pilot opportunity aligned to KDE goals
- Will eliminate dependence on antiquated special education system
- Rational for CEDS alignment – data elements and model
- Align tool for KY Data dictionary
- Simplify and improve efficiency of ED Facts reporting.
- Availability of additional reports beyond just required federal reports
- Increased data use and quality
- Leverage existing partnerships as resource to meet goals.
