

Ed-Fi Certified Partners

For Education Technology Providers and System Integrators

Technology providers, vendors and system integrators are an important part of the Ed-Fi Community. Vendors who become Certified Partners can expand their reach into new potential clients, demonstrate their commitment to interoperability, maximize their technology offerings, and provide customers with the support they require. Plus, by certifying against the Ed-Fi Data Standard, partners will only need to write code once which means significant cost savings in terms of resources, expertise and time. Join the growing list of Ed-Fi Certified Partners today!

Vendor Benefits

Marketing

- Profile spotlight on ed-fi.org
- Support for marketing initiatives
- Customer messaging for new Ed-Fi technology releases
- Joint press opportunities

Sales

- Sales planning support and joint calls
